

PLUG-N-PLAY SOFTWARE FOR CITIES

FEATURES

COMPLETE ALL-IN-ONE SOLUTION

We understand the challenges faced by organizations these days due to their tight budgets and small pool of resources. Moreover, there is a strong need to efficiently manage the operations and increase the overall productivity. So, we created SoftSuite which can provide all-in-one tool to achieve everything required by organizations. It has modules for CRM, Property management, Reminder service, Event listing, Email marketing, front end website, user management etc.

FULL CONTROL

SoftSuite provides full control as to who can access what. You can create multiple users and then can provide them individual access to different parts of the application. Only authorized users can create or update contents.

SOCIAL SHARING

Sometimes it is needed to share contents with others who are not users in your system. SoftSuite does this beautifully by providing permanent shareable links without compromising the security of the application.

FULLY INTEGRATED

You can integrate SoftSuite with your existing or new website easily. Also, we support many third party software and service like Mailchimp and even provide exporting records in popular formats such as CSV.

SUPER INTERACTIVE

SoftSuite pro-actively provides you email notifications and alerts on its dashboard so that you do not miss any important event or task. It even provides map based user interface to quickly view and edit listings.

USER FRIENDLY

SoftSuite is very intuitive and user friendly. We provide auto suggestions, multiple file uploading, accordion view wherever possible. We are even making it 508 complaint to support other users with disabilities.

MOBILE FRIENDLY

SoftSuite is modern. It is capable of being displayed properly on mobile devices like iPad and tablets. Now, you can take your office anywhere and can still be productive.

CLOUD HOSTED

SoftSuite is cloud app and so is hosted on cloud servers. To you it means reliability, speed, robustness and freedom to access it anytime, anywhere!

SIMPLE PRICING

We don't believe in giving unpleasant surprises. Our pricing is simple to understand and to afford. After you pay the charges, unlimited users can use the application and all the features are unlocked.
